SUMMARY

Growth marketer and full-stack developer with 6 years of experience across aviation, consulting, media, and enterprise tech. Combines performance marketing, data analytics, and hands-on development to build the systems behind growth, from Power BI dashboards and Palantir Foundry deployments to AI-powered customer support and content pipelines. Bilingual in Arabic and English, with experience coordinating across marketing, medical, and operations teams.

WORK EXPERIENCE

Madeed | Riyadh, KSA (Remote) Marketing Officer

06/2026 - Present

- Configured Intercom's Fin AI Agent with bilingual tagging, resolving 60% of queries without human support.
- Managed support across Intercom, WhatsApp, and email, handling 200+ conversations per month.
- Developed a pipeline that turns trending health posts into original Arabic content.
- Built an HTML/JS support console with reply templates, ticket tracking, and KPIs.
- Led "prevention, not cure" content strategy with medical review before publishing.
- Produced podcast scripts and short clips for social media reels.

Freelance Digital Marketing & Data Consultant | Remote

04/2025 - Present

- Built Power BI dashboards and reports for Ecompanio to support business decisions.
- Supported a cloud kitchen/bakery launch with location scouting, social media setup, and photography.
- Analyzed user engagement and KPIs for Padel Score to inform product decisions.
- Managed social media accounts with data-driven content strategies.
- Assisted with videography production and editing for digital campaigns.

Gargash Enterprises | Dubai, UAE Digital Growth Executive

09/2023 - 03/2025

- Led the Palantir Foundry rollout for the Strategy Department, connecting multiple data sources into automated KPI dashboards.
- Managed omnichannel campaigns, optimizing ROI through A/B testing and KPI tracking.
- Analyzed KPIs with Power BI, Excel, and Google Analytics to optimize operations.
- Collaborated with UX teams to enhance interfaces, improving engagement and reducing churn.

JSIT / Republic Airways | Amman, Jordan IT Support & Business Analysis Officer

07/2022 - 08/2023

- Assessed operational data concerning staff to evaluate crew performance and overall reliability of operations.
- Assisted IT operations by diagnosing system issues and maintaining technical continuity for crew and operational teams.
- Helped design and improve internal web applications.
- Analyzed feedback from crew members and insights related to service quality.

Deloitte | Amman, Jordan
Business Analyst

05/2021 - 06/2022

- Evaluated controls to ensure compliance and identify improvement areas for risk mitigation.
- Analyzed vulnerabilities and recommended solutions to strengthen security posture.
- Presented technical findings and recommendations to align with business goals.
- Tracked IT trends and regulatory updates to enhance risk management strategies.

Shahid / MBC | Amman, Jordan
Media Engineer Intern

04/2019 - 03/2020

- Optimized streaming performance to ensure low latency and seamless playback.
- Assessed and enhanced algorithms to improve video quality and compression.
- Implemented automated workflows to reduce manual tasks and increase efficiency.
- Maintained protocols to protect data integrity and ensure compliance.
