

Aiham AlRawashdeh

Full-Stack Developer & Digital Marketer | Data & Business Analysis

Amman, Jordan | +962 79 681 1503 | Ayham19@icloud.com | linkedin.com/in/ayham-alrawashdeh | aihamalrawashdeh.com

PROFESSIONAL SUMMARY

Full-stack developer and digital marketer who started out as an analyst. Six years across aviation, consulting, media, and enterprise tech, spotting where businesses bleed value and building the fix: websites, Power BI dashboards, and the paid acquisition, SEO, and analytics behind them. Delivered a Palantir Foundry deployment estimated at ~\$200K in annual savings. Works in Arabic and English across MENA.

EXPERIENCE

Madeed | 06/2026 - Present

Marketing Officer | Amman, Jordan (Saudi preventive health platform)

- Own marketing execution for a preventive health platform: campaigns, social media, and reporting.
- Produce bilingual Arabic/English content, including customer-facing FAQ documentation and podcast episodes.
- Run influencer outreach and partnership coordination with health-adjacent creators.

Freelance | 04/2025 - Present

Full-Stack Developer & Digital Marketer | Remote

- Build Next.js and React websites, Power BI dashboards, and paid acquisition, SEO, and analytics programs for early-stage brands.
- Ecompanio: AI-driven ATS and CV optimization platform; deployed and running LinkedIn ad campaigns.
- Padel Score: IoT wristband and app for real-time padel scoring, from PCB design through business development.
- Built a SaaS churn prediction model with a Power BI activation layer, plus a CRM/ERP suite for local businesses.

Gargash Enterprises | 09/2023 - 03/2025

Digital Growth Executive | Dubai, UAE

- Delivered the Palantir "Next-Gen" dashboard with Palantir UK on Foundry: unified SecurePath and Navixy telemetry across 3,500+ vehicles and 250+ properties, surfacing operational KPIs in Power BI.
- Drove an estimated ~\$200K in annual savings and a 20-25% reduction in idle time; codified workflows in Jira.
- Ran omnichannel campaigns and KPI analysis in Power BI and Google Analytics; partnered with UX to lift engagement and cut churn.

JSIT / Republic Airways | 07/2022 - 08/2023

IT Support & Business Analysis Officer | Amman, Jordan

- Assessed operational data on crew performance and overall reliability of airline operations.
- Diagnosed system issues and maintained technical continuity for crew and operational teams.

Deloitte | 05/2021 - 06/2022

Business Analyst | Amman, Jordan

- Evaluated controls to ensure compliance and identify improvement areas for risk mitigation.
- Analyzed vulnerabilities and recommended solutions to strengthen security posture.

Shahid / MBC | 04/2019 - 03/2020

Media Engineer Intern | Amman, Jordan

- Optimized streaming performance for low latency and playback; improved video quality and compression.
